

ACCOUNTING FOR CREDIT PROFESSIONALS *(or Understanding Financial Statements)*

SUMMARY:

Accounting is the language of business and anyone working in a business environment should have a solid grasp of accounting concepts and financial statements.

This course provides an interactive review of accounting principles from the perspective of a corporate banking professional. Participants will have the opportunity to build a set of financial statements that incorporate simple and complex accounting concepts. Important financial ratios will also be discussed as well as the importance of cash flow and cash flow measures.

Assignments, handouts and examples will be used throughout the course.

Timing: This course requires 2 days
