

Finance Interview Preparation

Master the Technical Finance Interview Questions

Summary

The Marquee Group offers interview preparation seminars to help participants prepare for finance interviews.

Most finance interviewers ask three types of questions:

1. Fit Questions
2. Market Questions
3. Technical Finance Questions

The sessions are focused on the most common technical finance questions that students should be prepared to answer during corporate finance interviews (e.g. investment banking, equity research, private equity or corporate finance roles).

Prerequisites

None.

Timing

This course requires 1 day.

Learning Topics

1. General

- ✓ Overview of the characteristics that recruiters look for in candidates applying for finance related roles

2. Corporate Finance and Valuation

- ✓ Discuss the concepts of equity value and enterprise value
